

NextREME™

SE | XC

Marine and Industrial Solutions.

SPECIALIST PAINT AND
SUBSTRATE SOLUTIONS FOR
EXTREME ENVIRONMENTS.

NextREME™

Marine and Industrial Solutions.

Now there's a paint finish and substrate solution for those challenging projects. The NextREME™ range gives you confidence for those severe environment areas or industrial projects that require a specialist solution.

SUPERIOR PAINT SYSTEMS

Nexteel™ offers an exclusive range of two paint finish systems – for use with the appropriate marine grade aluminium. This range, new to Australia, is significantly more durable and delivers a better colour retention performance.

WORLD'S BEST TECHNOLOGIES FOR AUSTRALIAN PROJECTS

Nexteel™ has sourced world best practices and solutions bringing you high performance roofing, walling and rainwater products.

Marine and Industrial Solutions.

Australian Standards | Meets AS2728: 2013

When a project demands marine grade performance or is in an environment where corrosion levels are high, consider our complete product solution.

Anything less than 200m from the coast requires a change from a steel substrate to a more suitable Marine Grade Aluminium. Nexteel™ offers two coated options in aluminium, the choice of either may depend on how aggressive the marine or industrial environment is and/ or how much roof surface is visible.

Nexteel™ partners with global paint suppliers PPG and Akzo Nobel to bring world class solutions and choice to the Australian market. Rigorously tested both overseas and within Australia, all Nexteel™ product is guaranteed to meet or exceed the relevant Australian Standard (AS2728: 2013). That's why Nexteel™ also offer the longest warranties.

PAINT SYSTEM PARTNERS

- PPG – Duranar XL®
- PPG – Durastar®
- AkzoNobel - Trinar®

PROTECTIVE FILM

Guaranteed 75 microns pre-installation removable protective film (NextSTRIP™)..
